FLUX NSFW / Nude Prompts and Learnings

BetterWaifu Team : 6-8 minutes

Is Flux, the newest AI model by Black Forest Labs, capable of NSFW?

I dived into NSFW prompting to find out.

The conclusion is: FLUX is capable of complete nudity and sensual interactions, but not sex acts.

Frustratingly, nipples and genitalia are often censored (blurred out or erased in strange ways). However, you can get around this if you prompt enough - it ends up being a game of chance.

Will FLUX be trained the same way that Stable Diffusion models were, so that we can have completely uncensored NSFW models based on FLUX in the future?

The team has not released any information on this, so it remains to be determined. My guess is that it will happen; the horniness of the internet is one of the most powerful forces in the world.

Quick note: FLUX has 3 models: Schnell, Dev and Prod. Schnell is lowest quality, meant for prototyping. Dev is higher quality, and Prod is even higher quality than that.

woman stands in front of a mirror, capturing a selfie. The image quality is grainy, with a slight blur softening the details. The lighting is dim, casting shadows that obscure her features. The room is cluttered, with clothes strewn across the bed and an unmade blanket. Her expression is casual, full of concentration, while the old iPhone struggles to focus, giving the photo an authentic, unpolished feel. The mirror shows smudges and fingerprints, adding to the raw, everyday atmosphere of the scene.
